3. No changes to group membership will be allowed throughout the academic year; e.g. students may not switch groups or form new groups throughout the academic year.
4. In the spring semester, a new student may join a group only if a new project is launched during the spring semester.

5. The first student in the above list will be the corresponding group member.
6. You can either state your advisor or topic preferences but not both. If you give your topic preferences, interested advisors will be assigned.
7. Advisor assignments will be made on the basis of advisor availability. If you are not assigned to any advisor with the first-round preferences, you have to refill this form for your second-round preferences.
